

POWER PAK™ MULTI-FUNCTION JUMP STARTER LITHIUM-ION (TYPE 2)

TYPE 2 (KP1401)

* DESCRIPTION

The KINCROME POWER PAK™ Multi-Function Jump Starter is ideal for charging vehicles to electronic devices. The Jump Starter starts up to 6 cylinder petrol engines great for vehicles, **motorcycles, small boats, jet ski's and ride-on mowers** (up to 400CCA). A great feature of the POWER PAK™ Multi-Function Jump Starter is it also includes various outputs to recharge a range of electronic devices including mobile phones, Tablets, PC computer, PSP, MP3/MP4, Air Pump and includes a LED light to see under the bonnet or for the unwanted emergency.

Featuring Lithium-Ion Technology, the battery holds 80% shelf charge for up to 6 months and is able to be recharged with the included 240V & 12V Chargers. **The POWER PAK™ Multi-Function Jump Starter** gives up to 20 starts per recharge, enabling multiple restarts without recharging and includes Surge Protected Cables, providing added protection for your vehicles electronic equipment. Includes a neat **carry pouch to store the POWER PAK™, accessory adaptors, chargers and cables together**

ideal to store in the glove box of the car.

The KINCROME POWER PAK™ (Type 2) features the NEW “Intelli-check” jumper leads!

The “Intelli-check” jumper leads provide the following additional features compared to the original standard jumper cables.

- **Reverse Polarity Protection** will protect the jump starter when the jumper cables are connected incorrectly.
- **Anti-Recharge** protection will stop the vehicles alternator from trying to recharge the jump starter.
- **Short Circuit Protection** protects the internal components from damage.
- **Over Discharge Protection** will stop the jump starter from dropping below required voltage.
- **Surge Protection** will protect the vehicles electronic components during use.

FEATURES

- **Includes Intelli-Check Cables**- For even more added protection of your vehicles electrical components: Reverse Polarity / Anti re-charge / Short Circuit / Over Discharge
- **Lithium Ion Technology**- holds 80% shelf charge for up to 6 months
- **3 X 3,700mAh Lithium Ion Battery Cells** - High Wh capacity provides multiple starts
- **Up To 20 Starts Per Recharge**- Enables multiple restarts without recharging
- **Surge Protected Cables**- Provides added protection for your vehicles electronic equipment
- **Multi-Purpose Device Charger**- Charge Mobile Phones, Tablets, Laptops & Other USB Devices
- **400Amp Peak Current**- Jumpstart up to 6Cyl Petrol Vehicles or vehicles with a battery CCA (Cold Crank Amp) rating of 400CCA or less
- **LED Safety Light, Flash, SOS**- provides a safe working environment when using the product at night
- **240V & 12V Chargers**- Charge at home or when on the go
- **500+ Cycles**- For longevity of the jump starter
- **Carry Pouch**- Retain the POWER PAK, accessory adaptors, chargers, cables together when not in use

Specifications

- **Battery Capacity: 14.8Wh (3700mAh)**
- **Battery Cells: 3**
- **Output:**
 - 5V/2A - Mobile phone, Tablet, PC, PSP, MP3/MP4
 - 12V/10A - Air Pump, Personal Electronic Devices, etc
 - 19V/3.5A - Laptop, PC
- Jump Start - 12V vehicle up to 400 CCA battery capacity
- LED Light - Light, Strobe, SOS
- **Input: 14V 1A**
- **Starting Current: 200A**

- Peak Current 400A
- Lifetime: >500 Cycles
- Operating Temperature: -20°C~60°C / -4°F~140°F
- Kit Contains - 15 Accessories
- Up to 20 starts per recharge
