

EL SERIES

OWNER'S TECHNICAL MANUAL

HR40030/HR40040 Air/ Water Hose Reels

Description

The Alemlube EL Series HR40030 and HR40040 air hose reels are quality hose handling, retrieval and storage systems each with crimped hose ends, integral carry handle and detachable mounting bracket enabling 180° hose reel rotation. Manufactured with high density impact resistant and UV stabilised polypropylene covers, the HR40030 (with PVC hose) and HR40040 (with Hybrid Polymer hose) feature a positive latching system that automatically locks the hose at the desired length and the heavy duty internal spring assembly easily retrieves the hose when partially or fully extended.

Suitable for use in the agricultural, automotive, manufacturing, contractor and transport sectors, the HR40030 and HR40040 air hose reels are ideal to use with drills, impact wrenches, angle grinders, ratchets and tyre gauges.

Mountable on the wall or ceiling, the EL Series HR40030 and HR40040 features a constant speed control device ensuring safe and accurate rewinding.

Specifications

Uses	Air
Working Pressure	300psi (20bar)
Materials	Plastic and PVC hose (HR40030) - Hybrid Polymer Hose (HR40040)

HR40030

HR40040

HR40030 and HR40040 AIR HOSE REELS

PART No.	PRODUCT DESCRIPTION	PSI/BAR
HR40030	EL Series Air Hose Reel complete with 20m x 10mm ID PVC hose and 0.9m lead in hose	300psi/20bar
HR40040	EL Series Air Hose Reel complete with 15m x 12mm ID Hybrid Polymer hose and 0.9m lead in hose	300psi/20bar

Technical Details

Item	Max Pressure (psi/bar)	Hose Working Temperature (C)	Hose Capacity		
			Material	I.D. (inch/mm)	Length (m/ft)
HR40030	300/20	-0~+60	PVC	3/8"BSP(M) / 10	20 / 65
HR40040	300/20	-10~+60	Hybrid Polymer	1/2"BSP(M) / 13	15 / 50
